

TIME TRAVEL WITH THOMMO

RETURN TO HECCIES

WELCOME AND APOLOGIES:

No guest speaker for our first meeting back at Heccies; If thing went pare shaped there would be no external witnesses. Two apologies, **Pauline** and **John**. We hope to see you both next Tuesday because we have **Kath McGuigan**, Principal of Mary MacKillop, **Joe Rossi**, President of Hectorville Community and Sporting Club and **Bill Leo**, President Football at Heccies. **Although we had no guest speaker, Ian was prepared with an impromptu summary of the Coat's involvement the previous weekend at Calperum Station.**

THINGS RAN SMOOTHLY

As things turned out, things went smoothly. I showed up at 5:50 AM just ahead of **Leonie and David**, to be greeted by **Bill Leo**. We ran through the alarm protocols and the Leonie and David got the feel for the kitchen. Breakfast was good to. **Thanks to all who helped with the move** last Friday and **especially Chris**, who came straight from the dentist and provided his trailer for moving the Tambour Cupboard, (which fits in nicely in the room that Bill Leo provided).

SIMON'S ICE BREAKER

'What's the one thing that you try avoiding or hate doing?'

Painting and its preparation were a popular answers. Some other hang up went back to childhood.

SIMON'S QUIZ: WHEN DID HOUSEPAINTING BECOME POPULAR AND WHY?

Simon had already planted the seeds for painting being an unpopular activity as he had just spent the previous week painting his Renmark Holiday Rental, so naturally he included it in his quiz question. As it turned out **it was an early method of sealing dampness**. Many paint fixers and additives were ideal for sealing out the damp.

IAN & SUZZETTE COAT'S CALPERUM EXPERIENCE

Ian and Suzette spent last weekend at **Calperum Station**, north of Renmark. Calperum is one of a handful of **Biosphere Reserves in Australia**. Rotary members from several Clubs across **District 9510** joined together to support the environment research activities undertaken on the property. This weekend saw a new activity, **measuring soil salinity**. This involves digging lots of holes. Meanwhile **Sue** continued the **measurement of water down a large array of boreholes** around the three main lakes on the property. She was ferried around in the **new Kubota RTV** seen below.

Suzette and Don Will on the RTV.

Lots of holes dug to measure soil salinity.

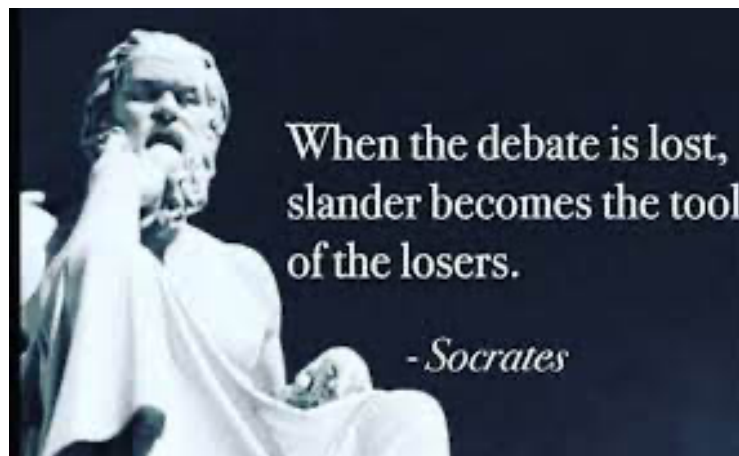

So, what's the end game with Calperum? Once we can fix the degraded land at Calperum, the same methods can be used throughout the Riverland on other degraded properties. **Well done the Coats**

THE MOVE TO HECCIES

First Impressions; a success.

LUCKY CARD NO WINNER: JACKPOTING \$15 NEXT WEEK.

PRESIDENT'S THOUGHT FOR THE DAY: SOCRATES COULD FORESEE LIVING IN 2021

No Meetings

THE OBJECT OF ROTARY

The Object of Rotary is to encourage and foster the ideal of service as a basis of a worthy enterprise and in particular to encourage and foster:

The development of acquaintance as an opportunity for service.

High ethical standards in business and professions: the recognition of the worthiness of all useful occupations: and the dignifying by every Rotarian of their occupation as an opportunity to serve society.

The application of the ideal service by every Rotarian to their personal, business and community life.

The advancement of international understanding, goodwill and peace through a world fellowship of business and professional people united in the ideal of service.

THE FOUR WAY TEST

The Four Way Test of the things we think, say or do:

Is it the truth?
Is it fair to all concerned?
Will it build goodwill and better friendships?
Will it be beneficial to all concerned?

THE OPTIONAL INVOCATION

For good food, good fellowship and the opportunity to serve through Rotary we give thanks.
