PRESIDENT'S REPORT

Join us to celebrate the new Magill Village precinct at the Community Event on Sunday 2nd April 2023 between 12 noon and 3pm.

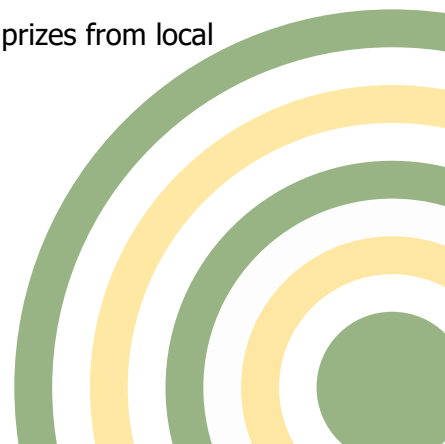

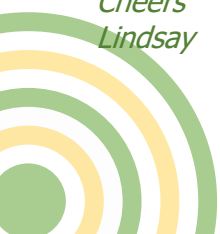

The event will showcase local businesses and come alive with food, fun and entertainment.

And how good is this?

- Council is offering the first 250 attendees at the Magill Sunrise Rotary Club marquee a \$10 VOUCHER to spend at participating businesses.
- After that, Magill Sunrise Rotary Club is offering a **FREE RAFFLE** with more prizes from local businesses.

We look forward to seeing you there.

Cheers
Lindsay

Guest Speaker: ROLEY COULTER

Morialta Secondary College is a new purpose-built co-educational government school which opened this year.

The architects for the school consist of a joint venture involving Thomson Rossi and Brown Falconer. They have designed an innovative, learning environment that draws from the ancient landscape of Morialta to develop contemporary, engaging, and inspiring spaces for learners and educators to collaborate and learn through a dynamic and exciting curriculum.

The school has welcomed its' inaugural year 7 students this year. Students transitioned to the college from thirty-three different public and independent primary schools joining

together for transition days on the 8th and 9th of December in 2022. The Magill and Campbelltown Rotary clubs supported the transition days by catering for the students with a barbecue which was greatly appreciated by the students.

The students commenced the year at Magill University whilst final touches were being put on the first building on campus before transitioning into the first building which includes the college's library, dining, café, science rooms, kitchen, visual art rooms, media room, E-Hub and general classroom spaces.

The remainder of the college is under construction with the works due to be completed by the end of 2023. The college encourages excellence in all forms and is deeply committed to helping every young person to be the best they can possibly be through academic achievements, social and emotional development, and as active community members.

The college's pillars that guide the community are for every student to '**Belong**', '**Achieve**' and '**Become**'. These pillars shape the learning program and approach which focuses on every young people feeling connected to their learning environment, their learning program, and other learners as well as feeling supported by the educators who work with them each day.

The inaugural students have been busy with over 90 students learning a musical instrument and with sporting teams competing against other schools across Adelaide.

All students are involved in the College's 'Inspire' program every Wednesday where students are focussing on their ability to collaborate to solve a problem or challenge. The over-arching challenge that each class has been asked to focus on is about how to build a sense of community and belonging in a new school community. Students are working in teams using the 'design thinking' process to develop solutions to this challenge through the lens of the learning area they have chosen which include: the arts, STEM, media, health and physical education, sustainability, and the environment.

The college will expand each year by one year level growing to 1200 students by 2028. By this year its' inaugural year 7s will be in their final year of secondary school.

Regionalisation Project

Dear Rotary members,

Since our last update in [December](#), the Regionalisation Pilot Project Team has been working hard behind the scenes on various aspects of the Regionalisation Pilot.

In particular, our team of around 100 volunteers from throughout Zone 8 has been consulting with District Governors, Elects and Nominees. Through this process, we have been able to determine our next steps and update the [pilot timeline](#).

We have also been creating an in-depth business case to present to the Rotary International Board in April 2023, which is the next critical step as we start to implement the pilot.

As we move into the pilot's next phase you can expect regular communications from us, so please keep a look out for emails from the team. For more regular updates and to be a part of our reference group, [subscribe here](#).

You can have your say by visiting creatingtomorrowrotary.org or emailing us directly at rotaryregionalpilot@gmail.com.

We are looking for people who are passionate about the future of Rotary and Rotaract to fill a number of exciting roles in our team. If you'd like to volunteer, please fill out the [application form](#).

The work occurring in the coming months will signal exciting milestones for this project. We look forward to keeping you informed as we approach the pilot's start on 1 January 2024.

Our next update will share the results of the April Rotary International Board Meeting.

Sincerely,

Regionalisation Pilot Project Team
Co-chairs Ingrid Waugh (NZ/Oceania) and Peter Frueh (Australia)

PRESIDENT'S THOUGHT FOR THE DAY

If you think education is expensive, try estimating the cost of ignorance.

Howard Gardner

QUIZ QUESTION:

There are four European countries that have their national capitals west of London. Name three of them.

Answer: Ireland, Iceland, Spain and Portugal.

ICE BREAKER:

George Orwell wrote in his book "1984", "Every record has been destroyed or falsified, every book rewritten, every picture has been repainted, every statue and street building has been renamed, every date has been altered. And the process is continuing day by day and minute by minute. History has stopped".

Roald Dahl's books are to be rewritten to remove language deemed offensive. Enid Blyton's books have been rewritten to avoid causing offence. "Gone with the Wind" now comes with a disclaimer. Statues and monuments around the world are being defaced or torn down. In the US in 2021 alone, 73 Confederate statues were removed because it was considered they represented hate and white supremacy. No one would disagree that slavery was a dark chapter in world history and Australia must also take responsibility for its part in slavery as well.

Just how close have we moved to "1984"?

Do you think that books written in a bygone age should be rewritten to appease modern day thoughts? Should statues be torn down and sent into oblivion, rather than have them seen in their historical context, warts and all?

Do you think we are on a dangerous slippery slope here to rewrite history?

Responses:

Across the club most thought that books written in a bygone age should stay as they were originally. I guess as someone who had grown up with Enid Blyton and enjoyed the adventures of the 'Famous Five' and 'The Secret Seven', probably the 1950's equivalent of Harry Potter, I find them today somewhat cringeworthy. In the future will Harry Potter fit into that category and need to be rewritten? It was commented on that people are becoming just a bit too precious.

Statues on the other hand had a mixed reaction. Some thought they should be removed, others they should stay. Over the centuries statues have been thrown in rivers, desecrated, or removed and now have found their way into museums. Personally, I think the statues should stay but have new plaques attached

reflecting historically what that person was involved with – the good and the bad. Perhaps a good place to start would be with the hundreds of statues to Christopher Columbus around the world.

Overall, the feeling was that we are treading a fine line.

Lindsay Davis appointed as President Elect

At the Rotary Club of Magill Sunrise Board meeting on 16 March 2023, Lindsay Davis advised his wish to nominate as the President of the Rotary Club of Magill Sunrise for the 2023-2024 Rotary Year.

The Board Directors agreed with the proposal and advised the nomination should be presented to the club members at the next meeting.

Accordingly, the nomination was presented to the assembled Rotary Club of Magill Sunrise members at the club meeting on Tuesday 21 March 2023 where it was unanimously agreed that Lindsay Davis be accepted as the President Elect to become the President for the 2023-24 Rotary Year from 1 July 2023.

Club members congratulated Lindsay on his appointment and thanked him for his past and future dedication to the club.

To all Rotarians and Rotaractors

You are invited to participate in **District Assembly in preparation for the 2023-2024 Rotary Year.**

The purpose of District Assembly is for you to make contact with the people in the District who can support you. It is to inform you about our major programs and to support you to know where to find further information.

District Assembly is an opportunity for you, as key members of your club or interested Rotarians, to be updated on what's happening in Rotary and to network with Rotarians across our District. It is a great fellowship opportunity so please come along with your board and interested Rotarians from your club.

Attending District Assembly will enthuse you to ... **CREATE HOPE in the WORLD.**

Those registered will receive a program well before so that you can plan what sessions you would like to attend, in advance.

Please complete your registration by 25th March. [Click here to Register.](#)
