PRESIDENT'S REPORT

Here's a brief overview of a big Week in the middle of a very big Month. You can read more and see photos in this Bulletin.

Last Friday was the very colourful and highly successful *Morialta Secondary College Sports Day BBQ*. Clearly this was a fantastic day for students, staff and families – and a pleasure to be working alongside our Rotary Club of Morialta friends.

Saturday saw a full room for the *80's themed Quiz Night* in aid of Magill RSL veterans' lunches. There was plenty of fun, laughter, prizes - and over \$4,000 has been raised for this worthwhile cause. Thanks to all the club members for your massive support of this event.

Last Sunday saw our club heading in two directions. There was a working party at the *Rotary Australia Re-Purposing Equipment* site, sorting and loading items. At the same time, some members and friends attended the *Lions Against Violence Adelaide High Tea* at Lochend House to successfully fundraise for domestic violence initiatives.

Our Tuesday meeting drew a bumper crowd. We heard from two speakers about how they have taken up the challenge to 'make a difference'. For those who know about the *Rotary Youth Leadership Awards (RYLA)*, Molly clearly loved the program. Our brains were then faced with the question of freedom of speech by the Vice President of *Amnesty International* in SA & NT.

Looking forward

- There is growing interest in the *Walk for Respect* to help educate the wider community and support domestic violence service organisations. This is such an important cause to support – please register now and join us on Saturday 25th November at 9:00 am at Victoria Square.
- There is every sign that the *Mega Magill Sunrise Christmas Market* will live up to its name. We have an amazing range of stalls already registered and this builds on growing customer traffic over the past few months.

Please advise Lindsay if attending

- We will have dinner at the Rotary Club of Tea Tree Gully on Wednesday 6th December and hear about *SA's AED Public Access Bill*. This will help Area 8 Rotary clubs plan how to support our communities with awareness (and more) AEDs.

Thanks for everyone's contribution over this period.

Cheers,

Lindsay

GUEST SPEAKERS: MOLLY SWEENEY & JODIE SARD

#1 Molly Sweeney

Our Club sponsored Molly to attend this year's RYLA (Rotary Youth Leadership Awards) this September.

RYLA is traditionally held in a rural setting with enough room for a campfire etc. Molly told us that there were 20 attendees from diverse backgrounds.

She made many new friendships which will be renewed at a Xmas get together. Without going into too much detail she was moved by the String Connection, where all were connected by a string which was then cut for each person to take their section.

Molly became aware of many leadership styles and that a good leader should be aware of different personalities and how they respond. A good leader should be prepared to step aside and delegate and adapt to the circumstances. Molly said that much humour came to the fore and it was an unforgettable experience.

#2 Jodie Sard

Jodie is **Vice President** of Amnesty International **in SA and NT**.

Jodie spoke passionately about the current plight of Julian Assange who has been effectively isolated for seventeen years. Jodie is also the coordinator of the **"Meet Your MP for Assange"** program to raise awareness of political prisoners.

Several years ago this movement started when Assange was moved to a British Maximum-Security Prison. Assange's mission when he founded Wikileaks was truth telling to stop wars. When Assange published 'Collateral Damage' his troubles began.

Jodie said that what Assange did was revolutionary in its time but is now commonplace. Author Nils Melzer has described the treatment of Assange as vindictive and archaic.

If you want to know more about Jodie's cause then she recommends "The Trial of Julian Assange", by Nils Melzer.

RARE (Rotary Australia Repurposing Equipment) is an activity that establishes an efficient and effective program for distributing obsolete medical and educational equipment to disadvantaged communities in Australia and overseas under a regulative framework.

Repurposing equipment achieves sustainability by placing obsolete equipment where it is needed, turning landfill into lifesaving aid, dramatically and measurably improving social and environmental outcomes.
