PRESIDENT'S REPORT

Wow! What a great start to the new Rotary year with our first new member induction. We are off to a great start. Welcome to our club Suzette and we hope you will enjoy your Rotary journey with us and find it a rewarding and fun experience as you discover the Magic of Rotary.

I would like to thank the work put in by club members for the changeover and all who attended for making it a great event.

I would also like to thank Tracy, Sue and Lara for providing us with a wonderful high tea which was enjoyed by all.

For me, I'm about to find out which is harder, being a Tour Guide or a Rotary President. I'll have to let you know the when I find out the answer.

I would also like to thank Mayor Jill for her words of wisdom to me at the

Changeover. I'm keeping them to myself at present but thanks Jill.

Our Changeover Raffle deviated from the norm and the money raised \$250.00 is going to Animal Rehoming Cairns and Tableland District to assist in finding forever homes for our furry and feathered friends.

I thank you for your generous support and congratulations to Mayor Jill for taking out the first prize.

Toodles!

Pauline

Shelter Box

Since 2012, ShelterBox and Rotary have been official Project Partners in disaster relief. By working together with Rotary, ShelterBox is able to collaborate and combine resources to ensure that we can support more communities in desperate need of shelter after disaster. Each year, Rotary helps us to go further, support more people and access areas that would otherwise be impossible to reach.

OUR NEWEST CLUB MEMBER – SUZETTE COAT

What an absolute delight it was to start the new Rotary year by inducting a new member into our club. Just can't get better than that.

Suzette has been an honorary member since 2021 and been heavily involved with our club in the Hawker Drought Relief, Calperum Station and our monthly market.

Now that she has taken the step to become a full member Suzette will join our International Committee as we embark on our first International project for many years – the Lirhanzo Children's Village and Chikombedzi Mission Hospital in Zimbabwe.

She will also play a part in assisting husband Ian on the Calperum and Environment Committee, along with still providing plants for us the sell at the market.

QUIZ QUESTION

On this day 2nd July 1881 Charles Guiteau did something infamous. What was it?

ANSWER: He shot President James A. Garfield twice in Washington DC as he waited to board a train to New Jersey. One shot glanced his arm, but the second shot went through his back shattering a rib and settled in his chest. The son of Abraham Lincoln, Robert Lincoln, was near him at the time and was very mindful of his father's assassination just 16 years earlier and extremely distressed. Garfield stoically exclaimed "My God! What is this?" and was taken to the White House where Doctors examined him. Despite the work of Joseph Lister, the Doctors treating Garfield did not believe in sanitisation, so they poked and prodded with unsanitised hands and instruments to try to remove the bullet to no avail and infection set in. Attempts to remove the bullet continued, including Alexander Graham Bell using a primitive metal detector to try to find where it was located. By the end of August Garfield had lost around 40kg in weight as the infection spread but continued to operate in a limited form as President from his bed at the White House. He continued to get worse and eventually died on the 19th of September. Vice President Chester A. Arthur was sworn in as President the following day.

Guiteau was a disgruntled member of the Republican Party who believed Garfield owed him a prestigious position for assisting him in his election, such as US Ambassador to France because he could speak French. Garfield did not deliver this and Guiteau in his delusion thought Arthur would give him this opportunity if Garfield was gone. He was wrong. He was hanged for his crime on 30th June 1882.

ICE BREAKER

The controversial subject was: Peanut Butter - crunchy or smooth?

Responses:

As expected, the room was pretty much split down the middle, with maybe a slight bias towards crunchy. A couple of other options were mentioned, one of those being "none" as peanut allergies are a large problem. Another was a hybrid that you can get from the Market from a machine that grinds the peanuts to whatever consistency you like. It was also mentioned that the allergens in peanuts change when they are cooked, so although they are a staple in many parts of Asia, very few people have allergies as they are usually consumed cooked in some way.
